THE MACDOWELL COLONY

100 High Street, Peterborough, NH, 03458,

United States of America

Tel: (1) 603 924 3886

Fax: (1) 603 924 9142

Email: info@macdowellcolony.org,

admissions@macdowellcolony.org

Website: www.macdowellcolony.org

Contact: Ms Courtney Bethel, Admissions Director

The MacDowell Colony was founded in 1907 to provide creative artists with uninterrupted time and seclusion to work and enjoy the experience of living in a community with gifted artists. Residencies are up to eight weeks for writers, and playwrights, composers, film and video makers, visual artists, architects and interdisciplinary artists. Artists in residence receive room, board and the exclusive use of a studio. There are no residency fees. A travel grant and limited artist grants are available to artists in residence, based on need.

MacDowell Colony Residencies

Subjects: Creative writing, visual arts, musical composition, film and video making, architecture and interdisciplinary arts, playwriting.

Purpose: To provide a place where creative artists can take advantage of uninterrupted work time and seclusion in which to work and enjoy the experience of living in a community of gifted artists.

Eligibility: Open to established and emerging artists in the fields specified. Students are not eligible to apply.

Level of Study: Unrestricted

Type: Residency

Value: Up to US\$1,000 for artists in need of financial assistance (stipends), plus limited travel grants for any artist based on need

Length of Study: Usually 4 weeks, maximum of 8 weeks

Frequency: Every 2 years

Study Establishment: The Colony

Country of Study: United States of America

No. of awards offered: A total of 32 studios are available during each application period for individual residencies

Application Procedure: Applicants must write, telephone or refer to the website www.macdowellcolony.org/apply.html for information and to apply online.

Closing Date: Summer (January 15th), Autumn (April 15th), Winter-Spring (September 15th)

Funding: Private

No. of awards given last year: 275 residencies

No. of applicants last year: 2,500

Additional Information: The studios are offered for the independent pursuit of the applicant's art. No workshops or courses are given.

Under subject Fine and Applied Arts, choreography is also included with Dance. Artists may apply once every 2 years.

MARCH OF DIMES

1275 Mamaroneck Avenue, White Plains, NY, 10605,

United States of America

Tel: (1) 914 997 4488

Fax: (1) 914 997 4560

Email: researchgrantssupport@marchofdimes.com

Website: www.marchofdimes.com/professionals

Contact: Research and Grants Administration

Four major problems threaten the health of America's babies, birth defects, infant mortality, low birth weight and lack of prenatal care. The goal of the March of Dimes Birth Defects Foundation is to eliminate these problems so that all babies can be born healthy.

Basil O'Connor Starter Scholar Research Award

Purpose: This award is designed to support young scientists just embarking on their independent research careers and is limited, therefore, to those holding recent faculty appointments. The applicants' research interests should be consistent with those of the Foundation.

Eligibility: The Basil O'Connor Starter Scholar Research Award is intended to be an initial independent grant to young investigators. Eligibility is thus restricted. PhD applicants should be 4 to 8 years past their degree and must hold a full-time faculty position at their current institution. For MD or MD/PhD applicants, the same 4–8 year timeline applies, but begins upon completion of the last year of clinical training required for medical specialty board certification. Requests for exceptions (e.g. parental leave) should be directed to the Senior Vice President for Research & Global Programs.

Type: Award/Grant

Value: Up to \$150,000 for 2 years

Frequency: Annual

Application Procedure: Deans, Chairs of Departments, or Directors of Institutes/Centers should submit nominations for this award addressed to the Senior Vice President for Research and Global Programs.

Closing Date: March 15th

Additional Information: These grants do not cover the recipient's salary, but do provide salary support for technical help. Please email any enquiries regarding the award.

For further information contact:

Email: ResearchGrantsSupport@marchofdimes.com

Website: http://www.marchofdimes.com/downloads/BOC_RFP_2013.pdf

March of Dimes Graduate Nursing Scholarship

Subjects: Nursing.

Purpose: To recognize and promote excellence in nursing care of mothers and babies.

Eligibility: Open to applicants who are registered nurses currently enrolled in a graduate or postgraduate programme in maternal-child nursing at the Master's or Doctorate level. Applicant must be a member of at least 1 of the following professional organizations: the Association of Women's Health, Obstetric and Neonatal Nurses, the American College of Nurse-Midwives or the National Association of Neonatal Nurses.

Level of Study: Postgraduate

Type: Scholarships

Value: US\$5,000

Frequency: Annual

Country of Study: United States of America

No. of awards offered: 4

Application Procedure: Applicants need to submit their application form, essay, reference letters and curriculum vitae.

Closing Date: January 13th

Funding: Foundation

Contributor: Scholarship supported in part by an educational grant from Pampers

Additional Information: Scholarship recipients are announced in May each year. Please see the website for further details.

March of Dimes Research Grants

Subjects: Health and medical sciences.

Purpose: To support research scientists with faculty appointments or equivalent at universities, hospitals or research institutions.

Eligibility: Open to citizens of the US and to employees or relatives of employees in the teaching industry.

Level of Study: Postgraduate

Type: Grant

Value: \$103,431 (Average); \$101,432 (Median); \$55,655–145,099 (Range)

Length of Study: Grants are usually awarded for a 3 year period, but may be for less if appropriate

Frequency: Annual

Country of Study: United States of America

Application Procedure: Potential applicants should submit electronically the required administrative information and a Letter of Intent addressed to the Senior Vice President for Research and Global Programs summarizing the proposed studies via our online system.

Closing Date: April 30th

Funding: Foundation

Contributor: March of Dimes Birth Defects Foundation

Additional Information: The entire process must be completed online at <http://modresearchgrants.egrant.net>.

Prematurity Research Initiative Program

Purpose: The March of Dimes seeks applications requesting grant support for projects related to causes of prematurity.

Type: Programme

Value: \$144,574 (Average); \$135,287 (Median) and \$110,070–168,554 (Range)

Frequency: Annual

Application Procedure: Potential applicants should submit electronically the required administrative information and a Letter of Intent addressed to the Senior Vice President for Research and Global Programs summarizing the proposed studies via our online system.

Closing Date: April 15th

Additional Information: Please see the website for further details www.marchofdimes.com/research/prematurityresearch.html.

Contributor: The Marine Corps Heritage Foundation

No. of awards given last year: 1 + 3 partial awards

No. of applicants last year: 5

Additional Information: Please see the website for further details www.marineheritage.org/Fellowships.asp.

Lieutenant Colonel Lily H Gridley Memorial Master's Thesis Fellowships

Subjects: Topics in U.S. military and naval history, as well as history and history-based studies in the social and behavioural sciences, with a direct relationship to the U.S. Marine Corps. This programme gives preference to projects covering the pre-1975 period where records are declassified or can be most readily declassified and made available to scholars.

Purpose: To award a number of fellowships to qualified graduate students working on topics pertinent to Marine Corps history.

Eligibility: Applicants must be actively enrolled in an accredited Master's degree programme that requires a Master's thesis.

Level of Study: Postgraduate

Type: Fellowship

Value: US\$3,500

Length of Study: 1–3 years

Frequency: Annual

Country of Study: United States of America

No. of awards offered: 2

Application Procedure: Applicants must complete an application form, available at www.history.usmc.mil. The applicant is responsible for ensuring that all required documentation is mailed before the closing date.

Closing Date: May 1st

Funding: Foundation, private

Contributor: The Marine Corps Heritage Foundation

No. of awards given last year: 1 + 3 partial awards

No. of applicants last year: 4

Additional Information: The Marine Corps Heritage Foundation will notify all applicants individually of the application committee's decision not later than mid-July. Please see the website for further details www.marineheritage.org/Fellowships.asp.

Marine Corps History College Internships

Subjects: History.

Purpose: To offer opportunities for college students to participate on a professional level in the Marine Corps Historical Center's many activities. The programme aims to give promising and talented student interns a chance to earn college credits while gaining meaningful experience in fields in which they might choose to seek employment after school or pursue a vocational interest.

Eligibility: Applicants must be registered students at a college or university. While there are no restrictions on individuals applying for intern positions, it has been found that mature and academically superior students are most successful.

Level of Study: Postgraduate, Under graduate

Type: Internship

Value: A small grant of daily expense money is provided. Any other costs of the internship must be borne by the student

Frequency: Annual

Study Establishment: Internships are served at the Marine Corps Historical Center in Quantico, Virginia

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Please see the website for details www.marineheritage.org/Internships.asp.

Funding: Foundation, private

Contributor: The Marine Corps Heritage Foundation

No. of awards given last year: 8

No. of applicants last year: 12

Additional Information: To learn more about the internship opportunities available or to obtain an application, please email Mr Paul Weber at the History Division to paul.j.weber1@usmc.mil or Deputy Director Charles Grow of the National Museum of the Marine Corps to charles.grow@usmc.mil.

Marine Corps History Research Grants

Subjects: Topics in U.S. of America military and naval history, as well as history and history-based studies in the social and behavioural sciences, with a direct relationship to the U.S. Marine Corps. This programme gives preference to projects covering the pre-1975 period where records are declassified or can be most readily declassified and made available to scholars.

Purpose: To encourage research.

Eligibility: While the programme concentrates on graduate students, grants are available to other qualified persons. Applicants for grants should have the ability to conduct advanced study in those aspects of American military history and museum activities related to the U.S. Marine Corps.

Level of Study: Research, Graduate

Type: Grant

Value: US\$400–3,000

Frequency: Annual

Country of Study: United States of America

No. of awards offered: 5

Application Procedure: See the website.

Funding: Foundation, private

Contributor: The Marine Corps Heritage Foundation

No. of awards given last year: 4

No. of applicants last year: 7

Additional Information: Please see the website for further details www.marineheritage.org/Grants.asp.

Funding: Private

No. of awards given last year: 1

Additional Information: The award is offered to a different programme each year. Please see the website for further details www.marquette.edu/grad/finaid_jwax.shtml.

Marquette University Graduate Assistantship

Subjects: All subjects.

Purpose: To financially support teaching and research.

Eligibility: Open to full-time Master's and doctoral students.

Level of Study: Graduate

Type: Assistantship

Value: Stipends start at \$13,517. In addition, up to 18 credits of tuition scholarship and health insurance are offered

Length of Study: 1 year

Frequency: Annual

No. of awards offered: 289

Application Procedure: Applicants must submit an application to the Graduate School by the deadline. The graduate bulletin or the website should be consulted for further details.

Closing Date: February 15th for Fall and November 15th for Spring

Funding: Private

Contributor: Marquette University

No. of awards given last year: 289

Additional Information: Please see the website for details www.marquette.edu/grad/finaid_assistantship.shtml.

Marquette University Women's Club Fellowship

Subjects: All subjects. The Graduate School selects a different graduate program each year for the fellowship.

Purpose: To support students who received their baccalaureate degrees from Marquette University.

Eligibility: Applicants must be admitted to a degree programme and have received a Bachelor's degree from Marquette University.

Level of Study: Graduate

Type: Fellowship

Value: US\$2,000 stipend

Length of Study: 1 year

Frequency: Annual

No. of awards offered: 1

Application Procedure: Qualified students will be contacted by their department.

Closing Date: February 15th

Funding: Private

No. of awards given last year: 1

Additional Information: The award is offered to a different graduate programme each year. Please see the website for further details www.marquette.edu/grad/finaid_muwomens.shtml.

R. A. Bournique Memorial Fellowship

Subjects: Chemistry.

Purpose: To support summer research financially.

Eligibility: Open to graduate students in chemistry.

Level of Study: Graduate

Type: Fellowship

Value: Varies depending on the fund availability

Length of Study: The Summer

Frequency: Annual

No. of awards offered: 2

Application Procedure: Applicants must contact the Department of Chemistry.

Closing Date: Contact the Department of Chemistry

Funding: Private

No. of awards given last year: 2

Additional Information: Please see the website for further details www.marquette.edu/grad/finaid_bournique.shtml.

MARSHALL AID COMMEMORATION COMMISSION

Woburn House, 20-24 Tavistock Square, London, WC1H 9HF, United Kingdom

Tel: (44) 020 7380 6704/3

Fax: (44) 020 7387 2655

Email: apps@marshallscholarship.org

Website: www.marshallscholarship.org

The Marshall Aid Commemoration Commission is responsible for the selection and placement of recipients of Marshall scholarships from the US to the UK. The first awards were presented in 1954.

Marshall Scholarships

Subjects: All subjects.

Purpose: To provide intellectually distinguished young Americans with the opportunity to study in the UK, and thus to understand and appreciate the British way of life.

Eligibility: Open to citizens of the US who have graduated with a minimum grade point average of 3.7 or A from an accredited U.S. college not more than 2 years previously. Recipients are required to take a degree at their U.K. university. Preference is given to candidates who combine high academic ability with the capacity to play an active part in the U.K. university.

Level of Study: Postgraduate

Type: Scholarship

Value: University fees, cost of living expenses, annual book grant, thesis grant, research and daily travel grants, fares to and from the US and, where applicable, a contribution towards the support of a dependent spouse

Length of Study: 2 academic years, with a possible extension for a third year

Frequency: Annual

Study Establishment: Any suitable institution

Country of Study: United Kingdom

No. of awards offered: 40

Application Procedure: Applicants must submit an application form, university or college endorsement and four references. Information

and application forms can be obtained from the British consulate in selected cities. Full details on application procedures can be obtained from the website. Application online at <http://www.marshallscholarship.org/applications>.

Closing Date: Early-October of year preceding tenure

Funding: Government

No. of awards given last year: 37

No. of applicants last year: 900

Additional Information: Please see the website for further details www.marshallscholarship.org/about/generalinfo.

For further information contact:

Georgia Pacific Center, Suite 3400, 133 Peachtree Street NE, Atlanta GA, 30303, United States of America

Email: Atlanta@marshallscholarship.org

Contact: British Consulate-General

Marshall Sherfield Fellowships

Purpose: To introduce American scientists and engineers to the cutting edge of U.K. science and engineering. It is intended that this in turn will build longer-term contacts and international links between the UK and the US in key scientific areas.

Eligibility: To qualify candidates should be citizens of the USA normally resident in the USA; and should hold a doctorate in a science or engineering subject by the time they take up their fellowship.

Level of Study: Postdoctorate

Type: Fellowship

Length of Study: 1–2 years

Frequency: Annual

No. of awards offered: 1

Application Procedure: Applications must be submitted with a completed form and associated documents and be scanned and emailed to m.denyer@acu.ac.uk by the deadline of October and hard copies must be couriered to The Marshall Commission, ACU, Woburn House, 20-24 Tavistock Square, London, WC1H 9HF, UK dated no later than the deadline. If candidates wish to receive acknowledgement of receipt of their completed application, they should include an email address.

Closing Date: October

Contributor: Marshall Sherfield Fellowship Foundation

Additional Information: These fellowships are not available for the study of a higher degree.

MASSEY UNIVERSITY

0800 MASSEY, TXT 5222,
New Zealand

Tel: (64) 09 414 0800, 64 6 350 5701

Fax: (64) 09 443 9704

Email: contact@massey.ac.nz

Website: www.massey.ac.nz

Massey University is a state funded university with a proud 80-year tradition of academic excellence. Its distance-learning programme delivers university qualifications to all parts of the country. It has a strong national and international reputation for the quality of research, research-led teaching, and the contributions of staff and graduates. It is a leader in advancing the economic, social, and cultural well-being of the people of New Zealand.

C. Alma Baker Postgraduate Scholarship

Subjects: Agriculture, agriculture-related technologies or the study of rural society.

Purpose: To encourage students enrolling in Master's or doctoral thesis programmes.

Eligibility: Open to candidates who are graduates and citizens of New Zealand. Awards are available for those intending to undertake postgraduate research either in New Zealand or overseas. Scholarships will be based on academic achievement.

Level of Study: Graduate, Postgraduate

Type: Scholarship

Value: Maximum \$13,000 a year for a Master's student and \$20,000 a year for a doctoral student

Length of Study: 1 year for Master's and up to 3 years for a Doctoral programme

Frequency: Dependent on funds available

Country of Study: New Zealand

No. of awards offered: Up to 6

Application Procedure: Applicants must apply on the prescribed form to the Secretary, C. Alma Baker Trust. A certified copy of Academic Record, birth certificate, passport, or other proof of citizenship, and an outline of proposed research (not more than one page) must be enclosed with the application.

Closing Date: February 1st

Funding: Trusts

Additional Information: Do not send original documents as application and attachments will not be returned. Information provided will be used by the trust or its representatives only for awarding scholarships and may be subject to verification procedures as appropriate.

For further information contact:

C. Alma Baker Trust, c/o School of People, Environment & Planning Social Sciences Tower, Level 3, Massey University, Palmerston North, PN 331, New Zealand

Email: Contact@massey.ac.nz

Contact: Professor Barrie Macdonald, Secretary

Hurley Fraser Postgraduate Scholarship

Subjects: Applied sciences.

Purpose: To support postgraduate research in agriculture and horticulture.

Eligibility: Applicants must have enrolled for a full-time postgraduate degree or a diploma in one of the Applied Sciences. The award is based on the candidate's academic attainment.

Level of Study: Graduate

Type: Scholarship

Value: Up to \$2,000 per year

Study Establishment: Massey University

Country of Study: New Zealand

Application Procedure: Applicants must apply to the Scholarships Office, Graduate Research School on forms (ASSC.3) available from Massey Contact or can be downloaded from the website.

Closing Date: March 10th

Contributor: John Alexander Hurley Scholarship and the Edith Fraser Agricultural and Horticultural Research Fund

Additional Information: The award shall be paid in May. Applications will not be accepted more than 3 months in advance of the closing date.

For further information contact:

Tel: 0800 627 739

Email: Contact@massey.ac.nz

Postdoctoral Fellowship in Computational Biology

Subjects: Computational Biology.

Eligibility: A PhD in computational biology, or other applicable field. Candidates must have solid quantitative skills, preferably including a background in bioinformatics, statistics and programming. Training in other subject areas (such as biology or anthropology) can be provided as required. Knowledge of genetic systems would be beneficial. For detailed information, please visit website.

Level of Study: Postdoctorate

Type: Fellowship

Value: Salaries are extremely competitive, starting at New Zealand \$64,000 (US\$53,000) per year

Length of Study: 2.5 years

Country of Study: New Zealand

Application Procedure: To apply for this position, applicants have to upload required documents (in PDF format) by October 20th at the official Massey University job website: a brief statement of research interests, qualifications and experience; a curriculum vitae, including a list of scientific publications; names and contact details of three referees willing to provide a confidential letter of recommendation upon request.

Closing Date: October 20th

Additional Information: Funding is guaranteed for 2.5 years.

Sir Alan Stewart Postgraduate Scholarships

Subjects: All subjects.

Purpose: To encourage new postgraduate enrolments from other tertiary institutions and to assist Massey students to progress from undergraduate to postgraduate study.

Eligibility: Applicant must be enrolled or be intending to enrol full-time or part-time, in the year the award is to be made, in their initial year of a first postgraduate programme, undertaken either internally or extramurally and must be a New Zealand citizen or permanent resident who has completed an undergraduate degree at a New Zealand university.

Level of Study: Graduate

Type: Scholarship

Value: \$4,000 per year for full-time students and pro-rated for part-time students

Frequency: Annual

Study Establishment: Any Massey University campus

Country of Study: New Zealand

No. of awards offered: Up to 10

Application Procedure: Check website for further details.

Closing Date: December 1st

Additional Information: Consideration will normally only be given to students with a B+ average or better. Full-time students may hold the scholarship only once. Part-time students may re-apply to the maximum of \$4,000 in a period of 4 years from first enrolment in the postgraduate programme. Applications will NOT be accepted more than 3 months in advance of the closing date.

For further information contact:

Matsumae International Foundation Research Fellowship

Subjects: Any subject, however, priority is given to the fields of natural science, engineering and medicine.

Purpose: To provide an opportunity for foreign scientists to conduct research at Japanese institutions.

Eligibility: Open to applicants under 49 years of age, of non-Japanese nationality who hold a Doctorate, and who have not previously been to Japan.

Level of Study: Postdoctorate, Professional development, Research

Type: Fellowship

Value: ¥220,000 is provided monthly for the purpose of payment of tuition, expenses for research material etc. ¥100,000 is provided to assist with local travel expenses on arrival, the initial cost of lodging etc. We are now receiving applications for 2018 fellowships program.

Length of Study: 3–6 months

Frequency: Annual

Study Establishment: Unrestricted

Country of Study: Japan

No. of awards offered: 20

Application Procedure: Applicants must obtain the current issue of the fellowship announcement from the Foundation.

Closing Date: August 31st

Funding: Private

Contributor: Charitable donations from individuals

No. of awards given last year: 29

No. of applicants last year: 147

Additional Information: Priority will be given to the fields of natural science, engineering and medicine.

Tel: +49 (0)551 5176 0

Fax: +49 (0)551 5176 702

Email: info@ds.mpg.de

Contact: Max Planck Institute for Dynamics and Self-Organiz

The Max Planck Institute for Dynamics and Self-Organization (MPIDS) belongs to the Max Planck Society. Its research focus is in physics, with strong interdisciplinary aspects. It emerged in 2004 from the Max Planck Institute for Fluid Dynamics. The MPIDS is now right next to the Max Planck Institute for Biophysical Chemistry, with which it already had and continues to have cooperations in interdisciplinary areas of physics, biology, and medicine.

MPI-DS Gauss Postdoctoral Fellowships for International Students

Subjects: The MPI-DS has recently appointed Oxford University theoretical physicist Prof. Ramin Golestanian as a new Director, and he is currently in the process of establishing the Department of Living Matter Physics. The new department will engage in a wide range of theoretical research aimed at a multi-scale understanding of the dynamics of living systems from a physical perspective.

Purpose: These prestigious positions are aimed at postdoctoral researchers who have shown exceptional promise in their doctoral or early postdoctoral work, which needs to be in a relevant field.

Eligibility: International students are eligible to apply for this fellowship. The candidate should hold a PhD/DPhil degree with a background in theoretical physics, applied mathematics, or related fields, have prior experience with non-equilibrium statistical physics of biological systems and soft matter, and be fluent in the English language.

Level of Study: Postdoctorate

Type: Postdoctoral fellowship

Value: The candidate should hold a PhD/DPhil degree with a background in theoretical physics, applied mathematics, or related fields, have prior experience with nonequilibrium statistical physics of biological systems and soft matter, and be fluent in the English language. The Gauss fellowship is limited to two years with the possibility of extension. Salary is in accordance with the German state public service salary scale (E13 TVöD-Bund) and the corresponding social benefits. The earliest starting date is 1st March 2018

Study Establishment: The MPI-DS has recently appointed Oxford University theoretical physicist Prof. Ramin Golestanian as a new Director, and he is currently in the process of establishing the Department of Living Matter Physics. The new department will engage in a wide range of theoretical research aimed at a multi-scale understanding of the dynamics of living systems from a physical perspective

Country of Study: Germany

No. of awards offered: The department will have up to two research positions entitled Gauss Fellows

Application Procedure: Please apply online on our application portal. Applications in writing will not be sent back. Please send your CV, publication list, a statement of research interest and at least two letters of reference. Your statement of research interest should be commensurate with the position you are applying to. In addition to the description of your proposed research if relevant (depending on the position you are applying to), it should also briefly describe your past and current research interests and why you are interested in joining our department. The positions are open until they are filled. Once a position is filled, all applicants will be informed about the final decisions.

Closing Date: The positions are open until they are filled. Once a position is filled, all applicants will be informed about the final decisions

Additional Information: Please check the website for more details <http://scholarship-positions.com/mp-i-ds-gauss-postdoctoral-fellowships-international-students-germany/2017/12/26/>.

MAX PLANCK INSTITUTE FOR EUROPEAN LEGAL HISTORY

Postfach 50 07 01, Frankfurt, 60395, Germany

Contact: The Max Planck Institute for European Legal History

Max Planck Institute for European Legal History (MPIeR) in Frankfurt is a world leader in researching the history of law in Europe and beyond. Its two research departments with more than 60 scholars, the unrivalled collections of its specialized library and its numerous national and international co-operations make it the central research hub for a global scientific community investigating the past, present and future of legal regimes.

Postdoctoral and Research Scholarships at MPIeR in Germany

Subjects: For 2019 the main areas of research pursued at the Institute are: Department I – Professor Stefan Vogenauer (Legal transfer in the common law world, History of European Union Law, Fundamental issues concerning legal reception) and Department II – Professor Thomas Duve (Diversity, property and dependency regimes in Iberian Imperial territories (16th–20th century), Legal history of the School of Salamanca, History of legal historiography: traditions of writing legal history).

Purpose: Max Planck Institute for European Legal History (MPIeR) invites scholars from Germany and abroad to apply for Postdoctoral and Research Scholarships.

Eligibility: Scholars from both Germany and abroad are eligible to apply. If English is not your first language then you will need to show that your English language skills are at a high enough level to succeed in your studies.

Level of Study: Research

Type: Research

Value: The amount of the scholarship awarded is dependent on the scholarship holder's level of qualification. Postdocs receive 2100.00 € per month and research scholarship holders receive 2300.00 € per month

Country of Study: Germany

No. of awards offered: Not known

Application Procedure: Applications should be complete (including CV, list of publications, and the form "Additional Application Details") and submitted via the online application system. Furthermore, we request PDF copies of three major publications the applicant has authored within the last five years as well as the contact details of two personal referees.

Closing Date: May 31st

Additional Information: For more information, please see the website <http://scholarship-positions.com/postdoctoral-and-research-scholarships-mpier-germany/2018/02/13/>.

MAX PLANCK INSTITUTE FOR HUMAN COGNITIVE AND BRAIN SCIENCES

Stephanstr. 1 a, Leipzig, 04103, Germany

Tel: +49 341 9940 00

Fax: +49 341 9940 221

Contact: Max Planck Institute for Human Cognitive and Brain

The Max Planck Institute for Human Cognitive and Brain Sciences is located in Leipzig, Germany. The institute was founded in 2004 by a merger between the former Max Planck Institute of Cognitive Neuroscience in Leipzig and the Max Planck Institute for Psychological Research in Munich. It is one of 83 institutes in the Max Planck Society (Max Planck Gesellschaft).

MPI-CBS Postdoctoral Position in Neuroscience of Pain Perception in Germany

Subjects: Position is awarded to understand how the multifaceted experience of pain is constructed from the interaction of external noxious input and internal expectations and predictions about pain.

Purpose: The aim of this research project is to understand how the multifaceted experience of pain is constructed from the interaction of external noxious input and internal expectations and predictions about pain.

Eligibility: International students are eligible to apply for the position. Applicants must have a PhD (or equivalent degree) in neuroscience, psychology, cognitive science or a related discipline (biology, physics, computer science, engineering, etc).

Level of Study: Postdoctorate

Type: Postdoctoral fellowship

Value: Remuneration is based on the pay scale of the Max Planck Society. The Max Planck Society is committed to increasing the number of individuals with disabilities in its workforce and therefore encourages applications from such qualified individuals.

Study Establishment: Max Planck Institute for Human Cognitive and Brain Sciences (MPI-CBS)

Country of Study: Germany

No. of awards offered: Not known

Application Procedure: To apply, please submit a cover letter stating personal qualifications, a curriculum vitae, contact information for two referees, a brief statement describing your research experience, your academic achievements and your motivation to apply for this position (1 page), and copies of up to three of your publications. Please submit your application via our online system.

Closing Date: January 20th

Additional Information: For more details please refer to the website <http://scholarship-positions.com/mp-i-cbs-postdoctoral-position-neuroscience-of-pain-perception-germany/2018/01/03/>.

MAX PLANCK RESEARCH GROUP NEURAL MECHANISMS OF HUMAN COMMUNICATION

Max-Planck-Institut für Kognitions- und Neurowissenschaften,
Stephanstraße 1a, Leipzig Sachsen, Deutschland, 04103,
Germany

Tel: +49 341 9940 2476

Tel: +49 341 9940-2499

Contact: Mrs Prof. Dr. Katharina von Kriegstein

The positions are funded by the ERC consolidator grant SENSOCOM. The aim of the SENSOCOM project is to investigate the role of auditory and visual subcortical sensory structures in analysing human communication signals and to specify how their dysfunction contributes to human communication disorders such as developmental dyslexia and autism spectrum disorders.

PhD and Postdoctoral Positions – Investigating Sensory Aspects of Human Communication

Subjects: Investigating Sensory Aspects of Human Communication.

Purpose: The aim of the SENSOCOM project is to investigate the role of auditory and visual subcortical sensory structures in analysing human communication signals and to specify how their dysfunction contributes to human communication disorders such as developmental dyslexia and autism spectrum disorders.

Eligibility: Applicants from Germany are eligible to apply.

Level of Study: Doctorate, Postdoctorate

Value: Not known

Country of Study: Germany

No. of awards offered: Initially for two (postdocs) or three (PhD) years, the positions offer the possibility of an extension

Application Procedure: To apply, please submit a CV, contact information of two references, a brief personal statement describing your qualifications and future research interests, copies of up to two of your publications. Please submit your application via our online system at <https://tinyurl.com/yck4em3s> (using subject heading "ERC 01/18").
Closing Date: Contact employer
Additional Information: please visit the website for more information <http://scholarship-positions.com/phd-postdoctoral-positions-investigating-sensory-aspects-of-human-communication/2018/02/19/>.

MAX PLANCK SCIENCES PO CENTER ON COPING WITH INSTABILITY IN MARKET SOCIETIES

Sciences Po, 27 rue Saint-Guillaume, Paris,
 Cedex 07, 75337, France

Contact: MaxPo - Max Planck Sciences Po Center on Coping with Instability in Market Societies

The Max Planck Sciences Po Center on Coping with Instability in Market Societies (MaxPo) is a Franco-German research centre which was jointly founded in 2012 by the Max Planck Society and Sciences Po at the initiative of the Max Planck Institute for the Study of Societies (MPIfG) in Cologne.

MaxPo Doctoral Fellowships for International Students in Germany

Subjects: Economic sociology, political economy, or economic or political history and can include: the intellectual, political, and economic history of neoliberalism; elite and mass politics; the marketization of social life; concepts of democracy, politics, and progress since the 1970s.

Eligibility: Students of all nationalities are eligible to apply for this fellowship.

Level of Study: Doctorate

Value: 2,188 euros (monthly gross salary)

Country of Study: Germany

No. of awards offered: Not known

Application Procedure: Required documents (to be compiled into a single PDF file): a CV; a transcript of records from each institution attended; a cover letter briefly describing your intellectual trajectory so far and discussing the topics that interest you (2 pages maximum); a thesis project proposal (5,000 words maximum); a project title; an abstract summarizing your thesis project; a writing sample (such as an article, thesis, or term paper); if possible, we strongly encourage you to obtain one or more letters of recommendation (a letter from your MA advisor would be especially useful).

Closing Date: March 15th

Additional Information: For more details please contact the website <http://scholarship-positions.com/maxpo-doctoral-fellowships-international-students-germany/2018/01/09/>.

MAX PLANCK SOCIETY

und internationales Strafrecht – Stipendienstelle d. Verwaltung,
 Günterstalstr. 73, 79100 Freiburg i. Br, Germany

Contact: Max-Planck-Institut für ausländisches

Max Planck Institute for Foreign and International Criminal Law is offering research scholarships for foreign researchers whose work promotes and advances the goals of the research program and the research focuses of the Institute.

Max Planck Society Research Scholarships

Subjects: comparative law, European criminal law, international criminal law, economic crime, terrorism, organized crime, and information law

Purpose: To foster individual research projects, the Max Planck Society offers foreign researchers the possibility of obtaining a scholarship.

Type: Scholarship

Value: €1,365 per month for doctoral scholarships, €2,100 per month for post-doctoral scholarships and €2,300 per month for research scholarships

Frequency: 2 and 4 months

Application Procedure: For information concerning the application procedure, please email stipendien@mpicc.de.

Closing Date: May 31st

Additional Information: Applications can be made either to the Department of Criminal Law (Prof. Dr. Dr. h.c. mult. Ulrich Sieber) or to the Department of Criminology (Prof. Dr. Dr. h.c. mult. Hans-Jörg Albrecht). Please clearly specify the chosen department in your application.

The McDonnell Center for the Space Sciences supports and stimulates scientists to work on fundamental problems in Space Sciences and Astroparticle Physics transcending borders between scientific disciplines.

McDonnell Center Astronaut Fellowships in the Space Sciences

Subjects: Space sciences, physics, earth sciences, astronomy, chemistry and planetary studies.

Purpose: To encourage scholarship and research in graduate students interest in the space sciences.

Eligibility: Open to citizens of the US who have applied for and been accepted into a graduate programme in the departments of physics or earth and planetary sciences or chemistry at Washington University, St Louis. Candidates must have an excellent academic background and a particular interest in the space sciences.

Level of Study: Doctorate

Type: Fellowship

Value: Full tuition plus a stipend

Length of Study: 3 years

Frequency: Annual

Study Establishment: Washington University

Country of Study: United States of America

No. of awards offered: 2

Application Procedure: Applicants who have been accepted into a Washington University graduate programme in physics, earth and planetary sciences, chemistry, biology or electrical engineering and who have exhibited an interest in the space sciences are eligible to be considered for a McDonnell Center Astronaut Fellowship.

Closing Date: January 15th (check the website)

Funding: Private

No. of awards given last year: 1

Additional Information: Please see the website for further details http://mcsc.wustl.edu/opportunities/graduate_fellowship.

McDonnell Graduate Fellowship in the Space Sciences

Subjects: Space sciences, physics, earth sciences, astronomy, chemistry and planetary studies.

Purpose: To encourage scholarship and research in graduate students in the space sciences.

Eligibility: Open to candidates who have applied for and been accepted into a graduate programme in the department of physics or earth and planetary sciences at Washington University, St Louis. Candidates must have an excellent academic background and a particular interest in the space sciences.

Level of Study: Doctorate

Type: Fellowship

Value: Full tuition plus a stipend

Contact: Maria Lopez, CAE, Executive Director

The Medical Library Association (MLA) is organized exclusively for scientific and educational purposes, and is dedicated to the support of health sciences research, education and patient care. MLA fosters excellence in the professional achievement and leadership of health sciences libraries and information professionals to enhance the quality of healthcare, education and research.

Cunningham Memorial International Fellowship

Subjects: Medical librarianship.

Purpose: To assist in the education and training of health science librarians from countries outside the US and Canada.

Eligibility: Open to those with a baccalaureate degree and a library degree who are working in a medical library. The applicant must submit a signed statement from a home country official stating that he or she is guaranteed a position in a medical library upon returning home. A satisfactory score must be achieved on the Test of English as a Foreign Language competency examination. Nationals of the USA or Canada are not eligible.

Level of Study: Professional development

Type: Fellowship

Value: US\$3,500 to cover travel and expenses to the MLA's Annual Meeting

Length of Study: 2–3 weeks

Frequency: Annual

Study Establishment: Medical libraries

Country of Study: United States of America or Canada

No. of awards offered: 1–2

Application Procedure: Applicants must submit a completed application form with three letters of reference in English, a project overview, a certificate of health, Test of English as a Foreign Language examination result and an audio or video tape.

Closing Date: December 1st

Funding: Private

No. of awards given last year: 1

Additional Information: Please see the website for further details www.mlanet.org/awards/grants/cunningham.html.

Eugene Garfield Research Fellowship

Subjects: Health sciences librarianship, information sciences and research.

Purpose: To stimulate research into the history of information sciences to increase the underlying knowledge-base and enhance the current and future practice of the information professions, particularly health sciences librarianship and health informatics.

Eligibility: Health sciences librarians and information scientists, health professionals, researchers, educators, and administrators are eligible. Applicants must have a master's or doctor's degree or be enrolled in a program leading to such a degree and demonstrate a commitment to the health sciences.

Type: Fellowship

Value: US\$5,000

Length of Study: 1 year

Frequency: Annual

No. of awards offered: 1

Application Procedure: Applicants must submit a complete application, curriculum vitae, a detailed research proposal, and letter(s) of support from the applicant's home institution.

Closing Date: December 1st

Funding: Private

Additional Information: The fellowship is not designed to support research for a doctoral dissertation or master's thesis. For more information about any of MLA's grants or scholarships, contact Maria Lopez at 312 419 9094 (x15).

For further information contact:

Email: grants@mlahq.org

Website: www.mlanet.org

MLA Continuing Education Grants

Subjects: The theoretical, administrative and technical aspects of library and information science.

Purpose: To provide professional health science librarians with the opportunity to continue their education.

Eligibility: Open to citizens of the US or Canada or permanent residents who are medical librarians with a graduate degree in library science and at least 2 years of work experience at the professional level.

Level of Study: Professional development

Type: Fellowship

Value: US\$100–500

Length of Study: 1 year

Frequency: Annual

Country of Study: United States of America

No. of awards offered: 1

Application Procedure: Applicants must complete and submit an application form along with three references. Candidates should also identify a continuing education programme.

Closing Date: December 1st

Funding: Private

No. of awards given last year: 1

No. of applicants last year: 2

Additional Information: The award does not support work towards a degree or certificate. For more information about any of MLA's grants or scholarships, contact Maria Lopez, 312 419 9094 x15.

MLA Research, Development and Demonstration Project Grant

Subjects: Health science librarianship and the information sciences.

Purpose: To provide support for research, development and demonstration projects that will help to promote excellence in the field of health sciences librarianship.

Eligibility: Open to members of the Association who have a graduate degree in library science, are practicing medical librarians with at least 2 years of experience at the professional level and are citizens or permanent residents of the USA or Canada. Grants will not be given to support an activity that is only operational in nature or that has only local usefulness.

Level of Study: Postgraduate

Type: Award

Value: US\$100–1,000

Length of Study: 1 year

Frequency: Annual

Country of Study: United States of America or Canada

No. of awards offered: 1

Application Procedure: Applicants must submit a completed application form with three references, a detailed description of the project design and budget.

Closing Date: December 1st

Funding: Private

No. of awards given last year: 2

No. of applicants last year: 4

Additional Information: For more information about any of MLA's grants or scholarships, contact Maria Lopez, 312 419 9094 x15.

MLA Scholarship

Subjects: Library science.

Purpose: To provide an opportunity to study at an ALA-accredited library school.

Eligibility: Open to citizens and permanent residents of the USA or Canada who are entering an ALA-accredited library school or who have at least one half of the academic requirements of the programme to finish in the year following the granting of the scholarship.

Level of Study: Graduate

Type: Scholarship

Value: Up to US\$5,000

Length of Study: 1 academic year

Frequency: Annual

Country of Study: United States of America or Canada

No. of awards offered: 1

Application Procedure: Applicants must submit a completed application form with two letters of reference, official transcripts and a statement of career objectives.

Closing Date: December 1st

Funding: Private

No. of awards given last year: 1

No. of applicants last year: 12

Additional Information: For more information about any of MLA's grants or scholarships, contact Maria Lopez, 312 419 9094 x15.

MLA Scholarship for Minority Students

Subjects: Medical librarianship.

Purpose: To provide a minority student with the opportunity to begin or continue graduate study in the field of library and information science.

Eligibility: Open to African, American, Hispanic, Asian, Pacific Island or Native American students who are entering an ALA-accredited library school and have at least one half of the academic requirements of the programme to finish in the year following the granting of the scholarship.

Level of Study: Graduate

Type: Scholarship

Value: Up to US\$5,000

Length of Study: 1 academic year

Frequency: Annual

Study Establishment: An ALA-accredited school

Country of Study: United States of America or Canada

No. of awards offered: 1

Application Procedure: Applicants must submit a completed application form with two letters of reference, official transcripts and a statement of career objectives.

Closing Date: December 1st

Funding: Private

No. of awards given last year: 1

No. of applicants last year: 9

Additional Information: For more information about any of MLA's grants or scholarships, contact Maria Lopez, 312 419 9094 x15.

Thomson Reuters/MLA Doctoral Fellowship

Subjects: Medical librarianship and information science.

Purpose: To encourage superior students to conduct doctoral work in the field of health sciences librarianship or information sciences.

Eligibility: Open to citizens or permanent residents of the USA or Canada who are graduates of an ALA-accredited library school and are enrolled in a PhD programme with an emphasis on biomedical and health-related information science.

Level of Study: Doctorate

Type: Fellowship

Value: US\$2,000

Length of Study: 1 year, non-renewable

Frequency: Every 2 years

Country of Study: United States of America or Canada

No. of awards offered: 1

Application Procedure: Applicants must submit a completed application form with two letters of reference, transcripts of graduate work completed, a summary of the project and a detailed budget plus a signed statement of terms and conditions.

Closing Date: December 1st

Funding: Private, commercial

Contributor: Thomson Scientific

Additional Information: The award supports research or travel applicable to the candidate's study and may not be used for tuition. For more information about any of MLA's grants, scholarships, or fellowships, contact Maria Lopez, 312 419 9094 x15.

MEDICAL RESEARCH COUNCIL (MRC)

David Phillips Building, Polaris House, North Star Avenue,
Swindon, Wiltshire, SN2 1FL, England

Tel: (44) 020 7636 5422

Fax: (44) 020 7436 6179

Email: joaune.mccallum@headoffice.mrc.ac.uk

Website: www.mrc.ac.uk

The Medical Research Council (MRC) offers support for talented individuals who want to pursue a career in the biomedical sciences, public health and health services research. It provides its support through a variety of personal award schemes that are aimed at each stage in a clinical or non-clinical research career.

Clinician Scientist Fellowship

Subjects: Biomedical sciences.

Purpose: Aim to develop outstanding medically and other clinically qualified professionals who have gained a PhD/DPhil to establish themselves as independent researchers.

Eligibility: Open to hospital doctors, dentists and general practitioners, nurses, midwives and members of the allied health professions. All applicants must have obtained a PhD, DPhil, or MD in a basic science or clinical research project, or expect to have done so by the time they take up the award. Applications from existing MRC fellows are particularly welcome. There are no residence eligibility restrictions for these fellowships.

Level of Study: Research, Postdoctorate

Type: Fellowship

Value: Competitive personal salary support plus research support staff at the technical level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: Up to 5 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Varies

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: April 9th

Funding: Government

No. of applicants last year: 40

Additional Information: Organization head office is split into two locations: London and Wiltshire. Please see the website for further details www.mrc.ac.uk/Fundingopportunities/Fellowships/Clinician-scientist/index.htm#top.

Jointly Funded Clinical Research Training Fellowship

Subjects: Biomedical sciences.

Purpose: To provide an opportunity for specialized or further research training within the UK leading to the submission of a PhD, DPhil, or MD.

Eligibility: Open to members of the Royal College of Surgeons of Edinburgh wishing to pursue research at the PhD or MD level. Residence requirements apply.

Level of Study: Postgraduate, Research

Type: Fellowship

Value: An appropriate clinical academic salary will be provided along with a fixed sum for research expenses and a travel allowance for attendance at scientific conferences

Length of Study: Up to 3 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Up to 2

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: Applicants are advised to check the MRC website for details

Funding: Government

No. of awards given last year: 2

No. of applicants last year: 17

Additional Information: The MRC provides opportunities for additional clinical research training fellowships through collaborations with

Royal Colleges and Charity funders. Any jointly funded fellowships will be offered under standard MRC terms and conditions and at the same funding level as any other MRC clinical research training fellowship. Not all jointly funded opportunities are available for each competition round; please see the competition deadlines for information on which funders are offering award for that competition. If you have any queries on MRC fellowships, please contact via email at fellows@headoffice.mrc.ac.uk.

MRC Career Development Award

Subjects: Biomedical sciences.

Purpose: To award outstanding researchers who wish to consolidate and develop their research skills and make the transition from postdoctoral research and training to becoming independent investigators, but who do not hold established positions.

Eligibility: It is expected that all applicants will hold a PhD or MPhil in a basic science and will have at least 3 years of postdoctoral research experience.

Level of Study: Postdoctorate, Research

Type: Fellowship

Value: Competitive personal salary support plus research support staff at the technical level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: Up to 5 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Up to 8

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: April 25th

Funding: Government

No. of awards given last year: 13

No. of applicants last year: 86

Additional Information: Awards may occasionally be jointly funded with other bodies. Please contact the Fellowships Section at the MRC for further details. Please see the website for further details www.mrc.ac.uk/Fundingopportunities/Fellowships/Careerdevelopmentaward/index.htm.

MRC Clinician Scientist Fellowship

Subjects: Biomedical sciences.

Purpose: To provide an opportunity for outstanding clinical researchers who wish to consolidate their research skills and make the transition from postdoctoral research and training to becoming independent investigators.

Eligibility: The scheme is open to hospital doctors, dentists, general practitioners, nurses, midwives and allied health professionals. All applicants must have obtained their PhD or MD in a basic science or clinical project, or expect to have received their doctorate by the time they intend to take up an award, and must not hold tenured positions.

Level of Study: Postdoctorate, Research

Type: Fellowship

Value: Competitive personal salary support plus research support staff at the technical level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: Up to 5 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Up to 7

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: April 9th

Funding: Government

No. of awards given last year: 10

No. of applicants last year: 40

Additional Information: Please see the website for further details www.mrc.ac.uk/Fundingopportunities/Fellowships/Clinicianscientist/index.htm.

MRC Industrial CASE Studentships

Subjects: Any biomedical science.

Purpose: To enhance links between academia and industry in the provision of high-quality research training.

Eligibility: Candidates should have graduated with a good Honours Degree from a U.K. academic institution in a subject relevant to the MRC's scientific remit. This should be an Upper Second Class (Honours) Degree or higher. The MRC will, however, consider qualifications or a combination of qualifications and experience that demonstrates equivalent ability and attainment, e.g. a Lower Second Class (Honours) Degree can be enhanced by a Master's degree. A copy of the regulations governing residence eligibility may be obtained from the Council.

Level of Study: Postgraduate

Value: A tax-free maintenance stipend depending on U.K. location, university tuition fees up to the current DFEE recommended limit plus college fees, where applicable. Awards also include a fixed sum for conference travel expenses and a support grant to the university department to help cover incidental costs of students' training. As a measure of interest and involvement the industrial company is expected to make a financial contribution to the cost of the studentship

Length of Study: Up to 4 years

Frequency: Annual

Study Establishment: Universities, medical schools, industry and other academic institutions

Country of Study: United Kingdom

No. of awards offered: Approx. 30–35

Application Procedure: The MRC does not make awards directly to students. Awards are made to industrial partners who apply for studentships by application. The individual or academic partner will then advertise for students to apply for their awards. Students who wish to apply for a studentship are advised to contact the department where they wish to study to see if it has an allocation of awards.

Closing Date: July 10th

Funding: Commercial

No. of awards given last year: 10

No. of applicants last year: 23

Additional Information: Applicants should ensure that they have read the MRC Industrial CASE Scheme Guidance Notes before completing their application. Please see the website for further details www.mrc.ac.uk/skills-careers/studentships/how-we-fund-studentships/industrial-case-studentships/.

For further information contact:

Email: students@headoffice.mrc.ac.uk

MRC Senior Clinical Fellowship

Subjects: Biomedical sciences.

Purpose: Aim to develop outstanding medically and other clinically qualified professionals so that they become research leaders.

Eligibility: Open to nationals of any country. Applicants are expected to have proven themselves to be independent researchers, be well qualified for an academic research career and demonstrate the promise of becoming future research leaders. The scheme is open to hospital doctors, dentists, general practitioners, nurses, midwives and allied health professionals. Applicants must hold a PhD or MD in a basic science or clinical project and have at least 3 years of postdoctoral research experience.

Level of Study: Postdoctorate, Research

Type: Fellowship

Value: Competitive personal salary support is provided plus research support staff at the technical and postdoctoral level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: 5 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Up to 4

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: April 9th

Funding: Government

No. of awards given last year: 1

No. of applicants last year: 8

Additional Information: Please see the website for further details www.mrc.ac.uk/skills-careers/Fellowships/.

MRC Senior Non-Clinical Fellowship

Subjects: Biomedical sciences.

Purpose: To provide support for non-clinical scientists of exceptional ability to concentrate on a period of research.

Eligibility: Open to nationals of any country. Applicants are expected to have proven themselves to be independent researchers, be well qualified for an academic research career and demonstrate the promise of becoming future research leaders. Applicants should normally hold a PhD or DPhil in a basic science project, have at least 6 years of relevant postdoctoral research experience and not hold a tenured position.

Level of Study: Research, Postdoctorate

Type: Fellowship

Value: Competitive personal salary support is provided plus research support staff at the technical and postdoctoral level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: 7 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Up to 6

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: April 28th

Funding: Government

No. of awards given last year: 3

No. of applicants last year: 24

Additional Information: Please see the website for further details www.mrc.ac.uk/skills-careers/Fellowships/.

MRC Special Training Fellowship in Biomedical Informatics (Bioinformatics, Neuroinformatics and Health Informatics)

Subjects: Biomedical sciences.

Purpose: Aim at developing outstanding individuals who are seeking to move into the application of mathematical, statistical and computational methods to biomedical and health research problems.

Eligibility: The scheme is aimed at individuals from a variety of backgrounds such as non-biological as well as biological, non-clinical as well as clinical, and individuals with PhDs or MDs or with informatics research experience at the predoctoral level.

Level of Study: Postgraduate, Research

Type: Fellowship

Value: An appropriate academic salary will be provided along with a fixed sum for research expenses and a travel allowance for attendance at scientific conferences

Length of Study: 3 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

No. of awards offered: Up to 5

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC.

Closing Date: June 16th

Funding: Government

No. of awards given last year: 5

No. of applicants last year: 23

Additional Information: Award holders are encouraged to apply for a PhD or MD if they do not already have one. Please see the website for further details www.mrc.ac.uk/skills-careers/Fellowships/.

MRC/RCOG Clinical Research Training Fellowship

Subjects: Biomedical sciences.

Purpose: To encourage clinicians to become involved in research and to promote research of relevance to the Royal College of Obstetricians and Gynaecologists.

Eligibility: Open to members of the RCOG wishing to pursue research at PhD or MD level. Applicants must have a minimum of one year of experience in clinical obstetrics and gynaecology and hold part one membership of the college. Residence requirements apply.

Level of Study: Postgraduate, Research

Type: Fellowship

Value: £50,000–100,000 (estimated total funds is £80,000). Pre-doctoral level—the award provides a competitive personal salary, up to Specialist Registrar but not including NHS Consultant level, a Research Training Support Grant of up to £10,000 per year (items must be detailed and justified), and an annual travel allowance of £450. Postdoctoral level—the fellowship provides a competitive personal salary, up to Specialist Registrar but not including NHS consultant level, research expenses, and travel costs at an appropriate level for the research, under full economic costs (FEC). For full details of what funding includes at each level please see their website

Length of Study: 1–3 years

Frequency: Annual

Study Establishment: A suitable university or similar institution

Country of Study: United Kingdom

No. of awards offered: 1

Application Procedure: Applicants must contact the Fellowships Section, Research Career Awards of the MRC for details.

Closing Date: Check with website

Funding: Government

No. of awards given last year: 2

No. of applicants last year: 2

Additional Information: Please see the website for further details.

MEDICAL RESEARCH SCOTLAND

Turcan Connell, Princes Exchange, 1 Earl Grey Street,
Edinburgh, EH3 9EE, Scotland

Tel: (44) 131 659 8800

Fax: (44) 131 228 8118

Email: enquiries@medicalresearchscotland.org.uk

Website: www.medicalresearchscotland.org.uk

Contact: The Trust Administrator

Medical Research Scotland is comprehensive in its support and is not focused on research into any one disease or disorder. It supports the broad spectrum of medical research, all aimed at improving the understanding of basic disease mechanisms, diagnosis, treatment or prevention of disease or advances in medical technology.

Medical Research Scotland Sponsored Daphne Jackson Trust Fellowships

Subjects: Any of the biomedical, clinical, physical, computing or engineering sciences or mathematics, provided that the research addresses a question relevant to the cause, diagnosis, prevention or treatment of any disease, or to the development of medical technology.

Purpose: To provide two year part time fellowships for those wishing to return to medical research at a Scottish University or Research Institution after a career break of two years or more. Fellowships are awarded in conjunction with the Daphne Jackson Trust.

Level of Study: Postdoctorate, Professional development

Type: Fellowship

Value: Approx. £110,000

Length of Study: 2 years

Frequency: Annual

Study Establishment: Scottish Universities, Higher Education or research institutions recognized as such

Country of Study: Scotland

No. of awards offered: Up to 3

Contributor: Income from the original endowment fund, established when the charity came into being in 1953, invested and augmented by voluntary donations and bequests

PhD Studentship

Subjects: Any of the biomedical, clinical, physical, computing or engineering sciences or mathematics, provided that the research addresses a question relevant to the cause, diagnosis, prevention or treatment of any disease, or to the development of medical technology.

Purpose: To provide fully funded four year PhD Studentships, delivered collaboratively by a recognized Scottish University/Research Institution and a company working in medically-relevant research, which incorporate enhanced and tailored academic and commercial training and experience.

Eligibility: Open to Scottish universities/research institutions working in conjunction with a trading company operating in Scotland involved in medically-relevant life sciences research, to deliver 4 high-quality PhD studentship for suitably highly-qualified and motivated graduates of any country.

Level of Study: Postgraduate

Type: Studentship

Value: Approx. €100,000

Length of Study: 4 years

Frequency: Annual

Study Establishment: Scottish Universities, Higher Education or research institutions recognized as such

Country of Study: Scotland

No. of awards offered: Up to 10

Application Procedure: Applications must be submitted electronically on forms available from the website, from where full procedural information is available (www.medicalresearchscotland.org.uk/apply.htm).

Closing Date: July (check website for exact dates)

Contributor: Income from the original endowment fund, established when the charity came into being in 1953, invested and augmented by voluntary donations and bequests

Additional Information: Applications must be submitted by a university and an appropriate company and not by prospective students.

MEET THE COMPOSER, INC.

90 John Street, Suite 312, New York, NY, 10038,
United States of America

Tel: (1) 212 645 6949

Fax: (1) 212 645 9669

Email: mtc@meetthecomposer.org

Website: www.newmusicusa.org

Meet The Composer's mission is to increase artistic and financial opportunities for American composers by fostering the creation, performance, dissemination and appreciation of their music.

Commissioning Music/USA

Subjects: Music commissioning.

Purpose: To support the commissioning of new works.

Eligibility: Open to citizens of the United States of America only. Organizations that have been producing or presenting for at least 3 years are eligible and may be dance, chorus, orchestra, opera, theatre and music-theatre companies, festivals, arts presenters, public radio and television stations, internet providers, soloists and small performing ensembles of all kinds, e.g. jazz, chamber, new music, etc.

Level of Study: Professional development

Type: Grant

Value: Up to US\$10,000–20,000

Frequency: Annual

Country of Study: United States of America

Application Procedure: Individuals cannot apply on their own. Host organizations must submit completed application forms and accompanying materials.

Closing Date: March 19th (check with website)

Contributor: Offered in partnership with the National Endowment for the Arts

No. of awards given last year: 20–30

No. of applicants last year: 150–200

Additional Information: Please see the website for further details www.newmusicusa.org/grants/commissioning-music-usa/.

For further information contact:

Tel: ext 102

Email: swinship@newmusicusa.org

Contact: Scott Winship, Director of Grantmaking Programs

JP Morgan Chase Regrant Program for Small Ensembles

Subjects: Musical performance.

Purpose: To support small New York City-based ensembles and music organizations committed to performing the work of living composers and contemporary music.

Eligibility: Open to organizations focused primarily or exclusively on new music and living composers, improvisers, sound artists or singer/songwriters.

Level of Study: Professional development

Type: Grant

Value: US\$1,000–5,000

Frequency: Annual

Country of Study: United States of America

Application Procedure: Applicants must contact the organization.

Closing Date: Contact organization

Funding: Commercial

Contributor: In partnership with JP Morgan Chase

No. of awards given last year: 15–20

No. of applicants last year: 75–100

MetLife Creative Connections

Subjects: Musical performance.

Purpose: To support US composers for the participation in public activities related to specific performances of their original music. Creative Connections aims to increase awareness and enhance the creative artist's role in society by strengthening the connections between living composers, performing musicians, presenters, communities and audiences.

Eligibility: Open to citizens of the United States of America only. Organizations may be choruses, dance, opera, theatre and music-theatre companies, symphonies, arts presenters, musical organizations, festivals, television production companies, radio stations and performing ensembles of all kinds, for example, jazz, chamber, new music etc. Awards are based solely on the overall quality of the application, which includes the merit of the composer, participation, and level of audience or community involvement.

Level of Study: Professional development

Type: Award

Value: Up to US\$250–3,500

Country of Study: United States of America

No. of awards offered: Over 7,500

Application Procedure: Individuals cannot apply themselves, as performing organizations apply on behalf of the composer. Interested parties should contact the organization for further details.

Closing Date: check with website

Contributor: MetLife

No. of awards given last year: 85

No. of applicants last year: 800–1,000

Additional Information: Please see the website for further details www.newmusicusa.org/grants/metlife-creative-connections/.

For further information contact:

New Music USA, 90 John St, Suite 312, New York, NY, United States of America

Melville Trust for Care and Cure of Cancer Research Fellowships

Subjects: The care and cure of cancer.

Purpose: To fund innovative research work in the care or cure of cancer.

Eligibility: Applicants, who need not necessarily hold a medical qualification or have experience of research, should have formulated proposals for a research project which have been discussed with an established research worker in the field. The applicant should normally be under 30 years of age.

Level of Study: Research

Type: Fellowship

Value: UK£2,000

Length of Study: 1–3 years

Frequency: Annual

Study Establishment: One of the clinical or scientific departments in Lothian, Borders, Fife or Dundee

Application Procedure: Applicants must complete an application form and then be interviewed.

Closing Date: February 28th

Funding: Private

No. of awards given last year: 1

No. of applicants last year: 4

For further information contact:

Melville Trust for Care and Cure of Cancer, c/o Tods Murray LLP

Email: melvilletrust@todsmurray.com

Melville Trust for Care and Cure of Cancer Research Grants

Subjects: The care and cure of cancer.

Purpose: To fund innovative research work in cure or care of cancer.

Eligibility: Applicants need not necessarily hold a medical qualification or have experience of research. Research support by the Trust will be carried out in a clinical or scientific department in Lothians, Borders, Fife or Dundee, the head of which must signify his or her approval of the application.

Level of Study: Research

Type: Grant

Value: Up to UK£25,000

Length of Study: 1–3 years

Frequency: Annual

Study Establishment: One of the clinical or scientific departments in Lothian, Borders, Fife or Dundee

Application Procedure: Applicants must complete an application form.

Closing Date: February 28th

Funding: Private

No. of awards given last year: 1

No. of applicants last year: 7

MEMORIAL FOUNDATION FOR JEWISH CULTURE

50 Broadway, 34th Floor, New York, NY, 10004,
United States of America

Tel: (1) 212 425 6606

Fax: (1) 212 425 6602

Email: office@mfc.org

Website: www.mfc.org

Contact: Jeni S. Friedman, Executive Vice President

The Memorial Foundation for Jewish Culture is committed to the creation, intensification, and dissemination of Jewish culture world-wide, the development of creative programs to meet the emerging needs of Jewish communities globally, and to serving as a central forum for identifying and supporting innovative programs to insure the continuation of creative Jewish life wherever Jewish communities exist.

Ephraim Urbach Post Doctoral Fellowship

Subjects: Jewish Studies.

Purpose: To assist recent recipients of the PhD in a field of Jewish studies in publishing their first book, launching their scholarly career, and/or furthering research in their area of special interest.

Eligibility: Graduates of a PhD programme in a field of Jewish studies who achieved superior grades, in graduate school, completed their dissertation with distinction, and who show promise of distinguished academic careers are eligible to apply.

Level of Study: Postgraduate

Type: Fellowship

MENINGITIS RESEARCH FOUNDATION

Midland Way, Thornbury, Bristol, BS35 2BS,
 England

Tel: (44) 014 5428 1811

Fax: (44) 014 5428 1094

Email: gillianc@meningitis.org

Website: www.meningitis.org

Contact: Mrs Gillian Currie, Research Officer

Meningitis Research Foundation is a registered charity that supports an international programme of independently peer-reviewed research into the prevention, detection and treatment of meningitis and septicaemia. The Foundation also provides information for public and health professionals, runs medical and scientific meetings and provides support to people affected by the disease.

Meningitis Research Foundation Project Grant

Subjects: Meningitis and associated infections.

Purpose: To fight death and disability from meningitis and septicaemia by supporting research with the potential to produce results in immediate problem areas. Priority is given to work that is likely to bring clinical or public health benefits.

Eligibility: Meningitis Research Foundation research grants may be held in any country; nationality is not a restriction. Employees of commercial companies are not eligible to apply.

Level of Study: Research

Type: Project grant

Value: Up to UK£150,000 per year

Length of Study: Up to 5 years

Frequency: Annual

Study Establishment: Universities, research medical institutions and hospitals

Country of Study: Any country

No. of awards offered: Varies (usually 3–6)

Application Procedure: Applicants must submit a two- or three-page outline proposal by email summarizing the work planned, the

approximate cost and the duration of the project. This must include approximately ten lines explaining: (a) how the work described falls within the Foundation's research strategy, (b) the potential for clinical/public health benefit arising from the study and (c) why the applicant has chosen to apply to the Foundation for funding for this particular project. Based on the preliminary proposal, applicants may be invited to submit a full application. Applicants who are invited to apply in full submit a detailed research plan with other support documents. These are assessed by external referees and the Foundation's Scientific Advisory Panel.

Closing Date: Please see www.meningitis.org for more details including exact dates for this year's grant round

Funding: Individuals, commercial, corporation, foundation, government, private, trusts

Contributor: Voluntary donations from the public

No. of awards given last year: 3

No. of applicants last year: 41 proposals, 13 full applications

Application Procedure: Required scans and Word documents should be emailed to MMF@blakman.com. For detailed information, please visit website.

Closing Date: October 31st

Contributor: Miles Morland Foundation

Additional Information: The Scholarships will be announced in December.

MINDA DE GUNZBURG CENTER FOR EUROPEAN STUDIES (CES) AT HARVARD UNIVERSITY

27 Kirkland Street, Cabot Way, Cambridge, MA, 02138,
United States of America

Tel: (1) 617 495 4303

Fax: (1) 617 495 8509

Email: ces@fas.harvard.edu

Website: www.ces.fas.harvard.edu

The Minda de Gunzburg Center for European Studies at Harvard is dedicated to fostering the study of European history, politics and society. Through graduates, who go on to teach others about Europe and to many other roles in society, the Center sustains America's knowledge base about Europe, an important contribution to international understanding in difficult times.

Graduate Dissertation Research Fellowship

Subjects: Cultural, economic, historical, intellectual, political or social trends or on public policy in contemporary Europe (1750–present).

Purpose: To fund students from Harvard and the Massachusetts Institute of Technology who wish to conduct dissertation research.

Eligibility: Harvard doctoral students and MIT doctoral students in the social sciences. Applicants must have completed two years of graduate school and have passed their general examinations, but they can be at any stage of research.

Level of Study: Doctorate, Research

Type: Fellowship

Value: US\$24,000

Length of Study: 1 year

Frequency: Annual

Study Establishment: Harvard University

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: The application in pdf format is available on the CES website.

Closing Date: February 13th

Funding: Foundation

Contributor: Krupp Foundation and Minda de Gunzburg Center for European Studies

No. of awards given last year: 10

No. of applicants last year: 18

Additional Information: The fellowships cannot be deferred and must be used within the 12 month period for which they are awarded.

Minda de Gunzburg Graduate Dissertation Completion Fellowship

Subjects: History, social sciences and cultural studies in modern or contemporary Europe (1750–present).

Purpose: To support students conducting dissertation work on contemporary Europe.

Eligibility: Open to advanced Harvard and Massachusetts Institute of Technology doctoral students. Students must have completed two draft dissertation chapters and submitted them to their advisor at the time of application.

Level of Study: Doctorate

Type: Fellowship

Value: US\$24,000

Length of Study: 1 year

Frequency: Annual

Study Establishment: Harvard University

Country of Study: United States of America

No. of awards offered: Varies

Application Procedure: Application form is available on the CES website.

Closing Date: February 17th

Funding: Foundation

Contributor: Krupp Foundation and Minda de Gunzburg Center for European Studies

No. of awards given last year: 2

No. of applicants last year: 14

Additional Information: The fellowships cannot be deferred and must be used within the 12 month period for which they are awarded. No other employment is allowed under the grant except serving as an adviser for an undergraduate senior thesis. Students who have previously received writing/completion grants from other sources are not eligible.

MINTEK

Private Bag X3015, Randburg, 2125, South Africa
Tel: (27) 11 709 4111
Fax: (27) 11 793 2413
Email: info@mintek.co.za
Website: www.mintek.co.za

Mintek is the partially state-funded South African metallurgical research organization. Its mission is to serve the national interest through high-calibre research and development and technology transfer that promotes mineral technology, and to foster the establishment of small, medium and large industries in the field of minerals and products derived from them.

Mintek Bursaries

Subjects: Chemical, metallurgical and electrical engineering, light current and electronics, chemistry, with an emphasis on inorganic, physical or analytical chemistry, metallurgy, extraction and mineralogy, geology, and physics.

Purpose: To promote the training of research workers for the minerals industry in general and to meet its own needs for technically trained people.

Eligibility: Open to graduates of any nationality who possess an appropriate 4-year degree or higher qualification. Knowledge of English is essential. Preference is given to South African citizens. Merit and excellence are the criteria for selection. The project should be a promising development that will contribute to Mintek's activities and is in line with its strategic purpose. The student must have a strong academic background and show the potential to develop expertise that would benefit Mintek, and the institution where the project is carried out should be a centre of excellence in the subject.

Level of Study: Postgraduate

Type: Bursary

Value: Bursaries cover the full payment of registration, tuition and residence fees, plus an allowance, in return for a commitment to work at Mintek on a month-for-month basis

Length of Study: Up to 2 years. Extension of this period can be granted by the President of Mintek

Frequency: Annual

Study Establishment: Any university or technikons in fields that complement its own activities

Country of Study: South Africa

No. of awards offered: 35

Application Procedure: Applicants must write for details.

Closing Date: July 31st

Funding: Government

Additional Information: Candidates are requested to sign a contract before starting their project. Usually, Mintek insists on a service commitment from the bursar on the completion of his or her studies on a year-to-year basis. Bursars are paid a monthly bursary-salary and Mintek pays the institution an amount to cover the project's running costs.

MIZUTANI FOUNDATION FOR GLYCOSCIENCE

Marunouchi Centre, Building 9F 1-6-1, Marunouchi, Chiyoda-ku, Tokyo, 100-0005, Japan

Tel: (81) 3 3211 0861

Fax: (81) 3 3211 0862

Email: info@mizutanifdn.or.jp

Website: www.mizutanifdn.or.jp

Contact: Shuichi Miyaura, Executive Secretary

The Mizutani Foundation for Glycoscience undertakes major programmes such as the worldwide distribution of research grants to qualified glycoscientists for their outstanding basic and applied research, assistance of international exchanges between Japanese and foreign glycosciences, contributions to glycoscience-related meetings in Japan and practice of other activities that are necessary to achieve the aims of the Foundation.

Mizutani Foundation for Glycoscience Research Grants

Subjects: Glycoscience.

Purpose: To contribute to human welfare, through the enhancement of glycoscience, by awarding grants for creative research in

glycoscience conducted by domestic and overseas researchers, by awarding grants for international exchanges and for convening conferences in the field of glycoscience.

Eligibility: An applicant must (a) have a doctor's degree or its equivalent, (b) have a documented capability of performing independent studies and (c) be a member of a research institute where he or she can carry out the proposed project.

Level of Study: Postdoctorate, Doctorate

Value: As much as 7,000,000 yen may be requested. In principle, a grant will be approved for one year, however, if desired, the period can be extended up to one year with the approval of the Foundation. The total budget for grants is 70,000,000 yen per annum. No more than 10% of the grant may be used for indirect costs (overheads), and no part of the grant may be used for stipends of the principal and/or collaborative investigators.

Length of Study: 1 year

Frequency: Annual

Country of Study: Any country

No. of awards offered: 10–15

Application Procedure: Applicant must make online registration, and also submit a set of application documents by post.

Closing Date: All the applications should arrive at the Foundation between July 1 and September 1 (Tokyo Time.) Decision letters will be airmailed no later than February 20 and the successful proposals will be funded in March.

The Montreal Neurological Institute is dedicated to the study of the nervous system and neurological disorders. Its 70 principal researchers hold teaching positions at McGill University. The Institute is characterized by close interaction between basic science researchers and the clinicians at its affiliated hospital.

Jeanne Timmins Costello Fellowships

Subjects: Neurology, neurosurgery and neuroscience research and study.
Purpose: To support research.
Eligibility: Applicant must hold an MD and/or PhD. degree. Prior to submitting an application, applicants must contact a faculty member at the Montreal Neurological Institute and obtain their agreement to act as a postdoctoral supervisor. The faculty member must be

identified on the application and will be required to provide a letter of support.

Level of Study: Postgraduate, Doctorate

Type: Fellowship

Value: Appointments are for one year with a value of \$31,000 per year

Length of Study: 1 year, with the possibility of renewal for a further year

Frequency: Annual

Study Establishment: The Montreal Neurological Institute

Country of Study: Canada

No. of awards offered: 4

Application Procedure: Applicants must write for details.

Closing Date: October 31st

Funding: Private

Contributor: Jean Timmins Costello

No. of awards given last year: 4

Additional Information: Supports research and study in clinical and basic neuroscience. Up to 4 fellowships are awarded each year.

Preston Robb Fellowship

Subjects: Neurology, neurosurgery and neuroscience.

Purpose: To support research.

Eligibility: Open to researchers of any nationality.

Level of Study: Doctorate, Postdoctorate, Postgraduate

Type: Fellowship

Value: Initial appointment is for one year with a value of \$40,000 per year

Length of Study: 1 year

Frequency: Annual

Country of Study: Canada

No. of awards offered: 1

Application Procedure: Applicants must write for details.

Closing Date: October 31st

Funding: Private

Contributor: Preston Robb

No. of awards given last year: 1

Additional Information: Supports the training of a clinical fellow to work jointly with our basic and clinician scientists.

MOTOR NEURONE DISEASE ASSOCIATION

PO Box 246, Northampton, Northamptonshire, NN1 2PR, England

Tel: (44) 16 0461 1873

Fax: (44) 16 04 627726

Email: research.grants@mndassociation.org

Website: www.mndassociation.org

Contact: Dr Sadie Vile, Research Grants Manager

The Motor Neurone Disease Association supports research on fundamental aspects of motor neurone disease (MND) and on its management and alleviation. It provides information and advice to patients and carers, and runs a nationwide care service.

MND Association Non-Clinical Fellowship Awards

Subjects: Research on all aspects of Motor Neurone Disease in all relevant disciplines. These Fellowships are not open to clinicians.

Purpose: To allow Post-Doctoral Scientists with some experience of MND research to develop their career further. Funded Fellowships will support research aimed at understanding the causes of MND, elucidating disease mechanisms and facilitating the translation of therapeutic strategies from the laboratory to the clinic.

Eligibility: Restricted to researchers at post-doctoral level to work at a suitable institute in the UK or Republic of Ireland. Applicants must be entitled to remain in the UK/Ireland for the whole period of the grant if awarded. For Junior Fellowships, applicants should have 2-5 years post-doc experience at the time of commencement of the grant.

For Senior Fellowships, applicants should have 4-10 years post-doc experience at the time of commencement of the grant. In considering the periods, allowance is made for career breaks, family leave etc.

Level of Study: Postdoctorate, Professional development, Research Type: Fellowships

Value: Junior Fellowships: Max UK £90,000 per year, 3 years. Senior Fellowships: Max UK £110,000 per year, up to 4 years.

Length of Study: Up to 4 years

Frequency: Annual

Study Establishment: University and other suitable research institute

Country of Study: United Kingdom, Republic of Ireland

No. of awards offered: 1-3

Application Procedure: Applicants must submit a summary of their proposal, which is first checked for eligibility and considered by three members of the research advisory panel (RAP). Full applications are invited thereafter and application forms are provided. Full applications will be considered by a minimum of two independent external referees and then by the Biomedical Research Advisory Panel (BRAP). Please see the website at <http://www.mndassociation.org/research/for-researchers> for full details of the application processes, together with grant guidelines and terms and conditions.

Closing Date: April 27th

Funding: Individuals, trusts

No. of awards given last year: 2 in 2016 (1 Junior Fellowships and 1 Senior Fellowships)

No. of applicants last year: 8 Full Applications in 2016

Additional Information: The lead applicant should be the potential fellow, currently a post-doctoral scientist. The head of the proposed host laboratory should be a co-applicant.

MND Association PhD Studentship Award

Subjects: Research on all aspects of Motor Neurone Disease in all relevant disciplines.

Purpose: To attract promising science graduates to develop a career in MND related research and to support research aimed at understanding the causes of MND, elucidating disease mechanisms and facilitating the translation of therapeutic strategies from the laboratory to the clinic.

Eligibility: Restricted to researchers based in laboratories in the United Kingdom and Republic of Ireland. Applicants must be entitled to remain in UK/Ireland for the whole period of the grant if awarded. The applicant should be the supervisor, not the potential student.

Level of Study: Doctorate, Graduate, Postgraduate, Research

Type: Studentship

Value: The Association will provide a student stipend of £16,000 per year (£17,000 in London), £8,000 per year for laboratory expenses and a total budget of £1,000, over 3 years, for conference attendance.

The Association will also cover relevant tuition/bench fees at the rate payable by UK/European students.

Length of Study: 3 years

Frequency: Annual

Study Establishment: University and other suitable research institute

Country of Study: United Kingdom, Republic of Ireland

No. of awards offered: Between 3 and 8

Application Procedure: Applicants must submit a summary of their proposal, which is first checked for eligibility and considered by three members of the research advisory panel (RAP). Full applications are invited thereafter and application forms are provided. Full applications are submitted to two or more independent referees and then to the RAP for consideration. Please see our research governance overview at www.mndassociation.org/research/for_researchers – for information on our grant application processes. The summary application form will be available on our website from mid-March to be completed online.

Closing Date: April 27th

Funding: Individuals, trusts

No. of awards given last year: 4 awarded in 2016

No. of applicants last year: 17 applications received in 2016

Additional Information: The studentships are awarded on the basis of scientific merit and the value of research training offered. The applicant must be the potential supervisor not the student.

MND Association Research Project Grants

Subjects: Research into all aspects of Motor Neurone Disease in all disciplines.

Purpose: To understand and research the cause and effective treatments of MND. To fund research to the highest scientific merit and greatest clinical or translational relevance to MND.

Eligibility: Overseas applicants must have a project that is unique in concept or design and that involves significant aspect of collaboration with an institute in the United Kingdom or the Republic of Ireland. The applicant must be eligible to remain employed at the host research institution for the period of the grant if awarded.

Level of Study: Postdoctorate, Professional development, Research Type: Grant

Value: UK£85,000 per year, maximum

Length of Study: 1–3 years

Frequency: Annual

Study Establishment: A research institution, including universities and hospitals

Country of Study: Any country

No. of awards offered: Varies with quality of applications and availability of funds

Application Procedure: Applicants must submit a summary of their proposal, which is first checked for eligibility and considered by three members of the research advisory panel (RAP). Full applications are invited thereafter and application forms are provided. Full applications are submitted to two or more independent referees and then to the RAP for consideration. Please see our research governance overview at www.mndassociation.org/research/for_researchers – for information on our grant application processes. The summary application form for project grants will be available on our website from mid-September to be completed online.

Closing Date: November 3rd and November 3rd

Funding: Trusts, individuals

No. of awards given last year: 7

No. of applicants last year: 29

Additional Information: The majority of grants are awarded to applicants based in the United Kingdom, Republic of Ireland, any country. However, overseas applicants may apply. Two of the grants awarded in 2016 are based outside the UK with appropriate UK collaboration.

Application Procedure: Visit website <http://our.murdoch.edu.au/Research-and-Innovation/Resources-for-students/Future-research-students/Admission-and-scholarships/International-student-scholarships/IPRS/>.

Closing Date: September 30th

Additional Information: Applicants who have had sustained contact with a potential academic research supervisor at Murdoch University prior to submission of their application will be considered favourably.

International Welcome Scholarships (IWS)

Subjects: Scholarships are available for all Business and Governance eligible degree courses and for all other eligible degree courses.

Purpose: International Welcome Scholarships are open to eligible international students who choose to study a Murdoch University Bachelor, Honours or Postgraduate Coursework degree programme.

Eligibility: Citizen of Bangladesh, Bhutan, China, India, Indonesia, Malaysia, Nepal, Pakistan or Sri Lanka can apply for these scholarships.

Level of Study: Postgraduate

Type: Postgraduate scholarships

Value: \$10,000 for all Business and Governance eligible degree courses and \$11,000 for the Bachelor of Nursing course

Study Establishment: Scholarships are available for all Business and Governance eligible degree courses and for all other eligible degree courses

Country of Study: Australia

No. of awards offered: Multiple scholarships are available

Application Procedure: To be considered for a scholarship, applications for entry to an eligible course need to be submitted to the international admissions office at least 2 weeks prior to the start of the semester that the student intends to commence their studies at Murdoch.

Closing Date: Deadline varies according to courses

Additional Information: For more details please visit the website <http://scholarship-positions.com/international-welcome-scholarships-iws-murdoch-university-australia/2016/09/22/>.

MUSCULAR DYSTROPHY ASSOCIATION (MDA)

National Office, 3300 E. Sunrise Drive, Tucson, AZ, 85718, United States of America

Tel: (1) 520 529 2000/1 800 572 1717

Fax: (1) 520 529 5454

Email: grants@mdausa.org

Website: www.mdausa.org

The Muscular Dystrophy Association (MDA) supports research into over 40 diseases of the neuromuscular system to identify the causes of, and effective treatments for, the muscular dystrophies and related diseases including spinal muscular atrophies and motor neuron diseases, peripheral neuropathies, inflammatory myopathies, metabolic myopathies and diseases of the neuromuscular junction.

MDA Grant Programs

Subjects: The muscular dystrophies and related diseases.

Purpose: To support research into over 40 diseases of the neuromuscular system, and to identify the causes of, and effective treatments for, the muscular dystrophies and related diseases.

Eligibility: Hold a Doctor of Medicine (MD), Doctor of Philosophy (PhD), Doctor of Science (DSc) or equivalent degree (i.e. DO); Open to persons who are professional or faculty members at appropriate educational, medical or research institutions; who are qualified to conduct and supervise a programme of original research; who have access to institutional resources necessary to conduct the proposed research project and who hold an MD or PhD.

Level of Study: Postdoctorate

Type: Grant

Value: Funding levels for primary Research Grants are unlimited.

Development grants are a maximum of \$60,000 per year

Length of Study: Maximum of 3 years

Frequency: Annual

Country of Study: Any country

No. of awards offered: Varies

Application Procedure: Applicants must complete the Request for Research Grant Application.

Closing Date: Pre-applications are due no later than December 15th or June 15th

Funding: Private

Contributor: Voluntary contributions

No. of awards given last year: 140

Additional Information: Proposals from applicants outside the USA will only be considered for projects of highest priority to the MDA. Other conditions apply. Research is sponsored under the following grant programmes: Neuromuscular Disease Research and Neuro-muscular Disease Research Development. Further information is available from the website.

MUSCULAR DYSTROPHY CAMPAIGN OF GREAT BRITAIN AND NORTHERN IRELAND

61A Great Suffolk Street, London, SE1 0BU, England

Tel: (44) 020 7803 4800

Fax: (44) 020 7401 3495

Email: research@muscular-dystrophy.org

Website: www.muscular-dystrophy.org

Contact: Mrs Jenny Versnel, Head of Research

The Muscular Dystrophy Campaign is a U.K.-based charity funding medical research and support services for people with muscular dystrophy and related conditions.

Muscular Dystrophy Research Grants

Subjects: Muscular dystrophy and allied neuromuscular conditions.

Purpose: To provide continuity of funding for high-quality research of central importance to the Muscular Dystrophy Campaign's research objectives.

Eligibility: The MDC will only fund U.K.-based research. Principal Investigators must hold a contract that extends beyond the duration of the grant at an institution approved by the MDC.

Level of Study: Postdoctorate, Research

Type: Research grant

Value: The range of awards for fellowships is typically between \$30,000 and \$50,000

Length of Study: 3–4 years (PhD Studentship), 1–3 years (Project Grants)

Frequency: Annual

Study Establishment: Universities, hospitals or research institutions

Country of Study: United Kingdom

No. of awards offered: Varies

Application Procedure: Applicants must contact the Head of Research with a summary of proposed research on A4-size paper.

Closing Date: October

Funding: Private

No. of awards given last year: 10

No. of applicants last year: 30

Additional Information: Please contact on research@muscular-dystrophy.org for updated information.

MUSEUM OF COMPARATIVE ZOOLOGY, HARVARD UNIVERSITY

26 Oxford Street, Cambridge, MA, 02138,

United States of America

Tel: (1) 617 495 2460

Fax: (1) 617 495 5667

Email: grants@oeb.harvard.edu

Website: www.mcz.harvard.edu

The Museum of Comparative Zoology was founded in 1859 through the efforts of Louis Agassiz (1807–1873). Agassiz, a zoologist from Neuchatel, Switzerland, served as the Director of the Museum from 1859 until his death in 1873. A brilliant lecturer and scholar, he established the Museum and its collections as a centre for research and education.

Ernst Mayr Travel Grant

Subjects: Animal systematics.

Purpose: To stimulate taxonomic work on neglected taxa.

Eligibility: This grant is open to all.

Level of Study: Research, Unrestricted

Type: Travel grant

Value: Awards average about \$1,000 each and may not exceed \$1,500

Length of Study: 1 year

Frequency: Twice a year

Study Establishment: An accredited museum

Country of Study: Any country

No. of awards offered: Varies

Application Procedure: Applicants must submit a short project description, itinerary, budget, a curriculum vitae and three letters of support. No proposal forms are required or provided. Proposals may be submitted through standard mail or electronically.

Submissions through standard mail must include five copies of all materials and be received by the closing date. Proposals submitted electronically must be created in Microsoft Word or plain ASCII text format. For additional information visit the website, www.oeb.harvard.edu/mayr-grant.htm or emailing grants@oeb.harvard.edu.

Closing Date: October 15th and April 1st

Funding: Trusts

Contributor: Ernst Mayr

No. of awards given last year: 13

No. of applicants last year: 25

Additional Information: Announcements of awards will be made within 2 months of the closing date.
